

Ecology and Environment, Inc. (E & E) has been selected as a Technical Advisory Services contractor to the BLM. The E & E team consists of:

**E & E** – Founded in 1970, E & E has provided environmental services throughout the western U.S. for 20+ years. E & E has extensive nationwide experience for the Federal government: we have managed over 128 environmental contracts for various Federal agencies. Specifically, we have conducted 226 assignments (\$14.4MM) for the DOI and USDA; 1,260 assignments (\$320MM) for the DOD and DOE; and 35,000 tasks (\$944MM) for the EPA. These have included more than 20,000 investigation and 10,000 remediation projects, as well as hundreds of NEPA EA/EIS projects.

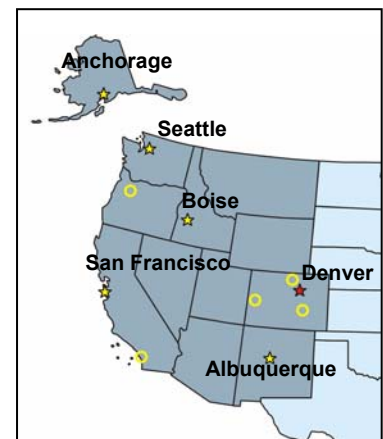

**Daniel B. Stephens & Associates (DBS&A)** – Based in Albuquerque, DBS&A is an environmental science and engineering consulting firm that has provided hazardous materials assessment and remediation services throughout New Mexico and Arizona.

**Stratus Consulting (Stratus)** – Stratus will support natural resource damage assessment (NRDA) tasks for this contract. They have worked on dozens of NRDA cases across the country, including for the BLM.

### Project Team

Our team consists of:

- A Program Manager located in Denver
- Both site investigation and remediation Project Managers in six locations in the western U.S.
- 328 staff in the states covered by the contract, including scientists, engineers, planners, and community relations specialists
- A PE and PG registered in every state serviced by this contract

**E & E will manage task orders from six western U.S. offices (marked by stars) with support from regional offices (marked by circles).**

### Experience

We have conducted 450+ projects at abandoned mine land, oil and gas production, uncontrolled landfill, and other sites in the states covered by this contract. Some of our more recent projects include:

- EE/CAs for the USFS and USACE at abandoned mine sites like the Cayton Silver Mine (ID)
- RI/FSs for Rocky Flats Environmental Technological Site (CO) and the Nacimiento Mine (NM)
- Remedial action at landfills across the country, including the Killingsworth Landfill RA (OR)
- NRDAs for the BLM at sites such as Iron Mountain Mine (CA) and Whitewood Creek (SD)
- PA/SIs at mining sites throughout the west, including the Black Butte Mine (OR)
- NEPA documents for the BLM and NPS, including the Roan Plateau RMP/EIS (CO)
- Cleanup/removal of wire burn sites for the BLM (CO)
